

# **Technical problem related to Notice of Electronic Filing and Procedure for applying for credit from PACER: (posted 02/23/06)**

Due to a recent upgrade, we encountered a problem with document links in the court's electronic filing system. The Notice of Electronic Filing (NEF) did not contain the proper links to the document filed. This problem affected documents filed on 2/19/06 , 2/20/06 and 2/21/06 until 9:30 a.m. If you were the filer or the recipient of an NEF that lacked the link to the document, you may review the document by accessing PACER. You may be charged for this access. You can use the Client Code to track this access; enter FREE PEEK in the Client Code, so you will be able to identify this when you receive your bill. To contact PACER directly to apply for a credit, fax your application for credit to PACER at 210-301-6441. Please indicate that you should not be charged for accessing this document due to technical problems and include your PACER ID. Please note that PACER will not credit your account until after the quarterly billing statements have been issued in April. For more information about applying for a credit, go to [pacer.psc.uscourts.gov](http://pacer.psc.uscourts.gov).
